## 2<sup>nd</sup> SQF-CON Conference: Invitation

Dear Sir or Madam,

In February 2008 an international consortium has started to elaborate a qualification frame (EQF) for the construction branch within the LEONARDO-Project:

### ***Developing and introducing a Sectoral Qualifications Framework for the European Construction Industry – SQF CON.***

During the last months the “working-consortium” (Germany, Italy, the Netherlands and Romania) has developed a qualification frame as well as a “Guidance Tool” for the European construction sector based on the European qualification framework – shortly named SQF-CON.

In the frame of the project two European conferences have been foreseen with participants of all affiliated organizations of FIEC and the EFBWW from EU-Member States as well as other national and international institutions and organizations for VET within the construction sector.

The 1<sup>st</sup> conference in January 2009 gave an overview about the objectives and preliminary results of SQF-CON.

Within the 2<sup>nd</sup> conference now the finalized products and preliminary results of dissemination activities will be presented.

**You are cordially invited to join the second SQF-CON Conference in Brussels:**

**On:** 01<sup>st</sup> of October 2009  
**Time:** 14:00 until 17:30

**Location:** Confédération Construction  
34-42 rue du Lombard  
1000 Brussels  
BELGIUM

Please find the program of the “2<sup>nd</sup> SQF-CON Conference” on the next page.

# Program of the “2<sup>nd</sup> SQF-CON Conference”

## 1. Welcome

Dr.-Ing. Bernd Garstka  
(Managing Director of Berufsförderungswerk der Bauindustrie NRW e.V.)
